

workshop support materials

We are excited you'll be joining us soon for a **Treatment Essentials** workshop.

In order to focus on the most valuable and easy to implement information in this workshop, we have some suggested learning to review **prior to attending**.

The following resources will support and build upon the information delivered in the workshop. This will take about 10-15 minutes for each workshop.

If you have any questions regarding the pre-learning, please do not hesitate to contact the education team at bookings.ca@dermalogica.com or 1.866.618.1116 ext 0.

We look forward to seeing you in class!
